

21 February 2017

2017 ILC - Register for the IOE Webinar on the 2017 CEACR General Report and General Survey on OSH instruments (construction, mining and agriculture) (2 March 2017)

Dear Members and Partners,

On 2 March 2017 at 17:30 Geneva time, we will be hosting a webinar on the **2017 CEACR Report** and the **CEACR General Survey (OSH construction, mining and agriculture)**.

Both documents form the basis for the discussions held each year in the Committee on the Application of Standards of the International Labor Conference in June and are also consultative documents not only for governments, employers and workers but also for a large number of international organisations and companies.

The agenda of the seminar is as follows:

- Introduction by the IOE
- Presentation of the CEACR Report 2017 by Corinne Vargha, Director, ILO International Labour Standards Department
- Q&A
- Closing remarks

The 2017 General Report of the CEACR, the General Survey, key messages of Sonia Regenbogen, Employers' Spokesperson to the CEACR, and the 2016 IOE Comments as input towards the preparation of the 2017 General Survey are available in the side panel.
