Future of work

Work is a pain, everyday you get up, aside from that, thank Godness, You will live a happy life If you are in love.
Risks or changes

• The experience of working has occupied a central place in terms of:
  – Obtaining a livelihood
  – Economic growth

• Economic or financial crisis

• Technological changes (artificial intelligence)
Faster and faster
\[ a_n = a_1 \cdot r^{n-1} \]
Uncertainty and insecurity
Future we want, but for whom?
Two points of view, or three?

Optimistic

Pessimistic
Globalization
Role of employers/employers’ organizations
Recomendations, I have chosen

- Sustainable enterprise approach
- To make regulation simpler and more efficient
- Close cooperation between the business and education sectors (skills)
- New ways of handling evolving or blended employment relations
- Social dialogue, but based on representativity
