## IOE Members' Area

The new IOE Members' Area is a dedicated and protected space for members and partners. It can only be accessed through a personal login by each user. This login is the same as the one you have previously been using. If you have not yet created your user profile please go on this page and follow the instructions.

Once you login to the Members' Area you will arrive to the main menu, called Dashboard (see image below). The Dashboard allows you to access all parts of the Members' Area either through the menu on top or the cards below (1 and 3 below). There is also a banner with important news (2). It is important that this section and menu are separate from the public IOE website and menu (which can still be accessed on the top right corner – 4).

As you can see from the image above there are several distinct areas to explore.

News

This area is very similar to the News section of IOE's public website. It presents a list of news in chronological order. The important difference is that here you can see News for the public (just like on the normal website) but also protected News for members and partners only (which cannot be seen on the public website). It is therefore important to check this section periodically for information relevant to members.

International Organisation of Employers | Organisation Internationale des Employeurs | Organización Internacional de Empleadores

Avenue Louis-Casaï, 71 - CH-1216 Geneva · T +41 22 929 00 00 - F +41 22 929 00 01 · ioe@ioe-emp.com - ioe-emp.org

Events

This area is like the News section and the Events section on the public website. It presents a list of upcoming events in chronologic order. However, it also shows events that are for members only and that are hidden on the public website. This section also allows you to register to certain IOE events as a member. This is not possible without logging in. (see example of an event with a registration button below)

IOE Centenary Summit will take place in the extraordinary Human Rights Council Room at the UN Palais in Geneva, Switzerland on 24 May 2020. Heads of State, UN leaders, CEOs from global and local companies, and world-renowned policy experts will take part. The Summit will be an all-day event from 11:00 - 18:30. If you want to be part of this event, click on registration button below.

Document Library

The Document Library is one of the main features of the Members' Area. It is a collection of all important documents grouped into several folders (2) and tagged with language, type, and date. The Document Library has a strong search function (1) which allows to easily find specific documents by keyword, date, language, type, or category. Users can either freely browse documents by clicking on the different folders or use the search function and find specific documents.

General Documents	+	Regions	+	Policy Areas	+
International Organisations	+	Business Networks	+	General Council	+
Management Board	+	News Archive	+		

Once in a certain folder the search only applies to that folder. For example, as seen below, searching for a document in the International Labour Organisation/Governing Body folder by using Document Type set to Report and the date from 1 April 2019 to 6 April 2020 will produce results from only that folder and not the whole Document Library.

Discussion Forums

Discussion Forums are also a completely new and important feature for members and partners. Discussion Forums are meant to be used by members of Policy Working Groups and Business Networks and are separate for each of those groups (1). Any user can create a Discussion by asking a question or making a comment and or join an existing discussion by adding comments (2).

Policy Working Groups and Business Networks

Each IOE Policy Working Group and Business Network has a dedicated page in the Members' Area that provides an overview of Discussions, News, Events and Documents for that group. The same content can be found on the other pages of the Members' Area but the dedicated pages provide an easy and focused view of the content particular to that group.

User profile

Finally, there is a section each user can access called My Profile. This screen provides an overview of information for each user's profile. You can see the information about yourself that IOE has in its database on the left (1) and you can change your login password on the right (2). There is a button on the bottom left that allows you to request an update of your profile information. This will send an email to IOE Secretariat requesting a change of your personal information as specified. This allows IOE to maintain up-to-date and relevant information on users of the Members' Area.
