We are one global
employer community

IOE is the largest
private sector network
in the world,
representing 50
million businesses
through 150
national employers
organisations.

IOE is the sole representative of
business in social and
employment policy debates
taking place at the International
Labour Organization (ILO), the
United Nations, G20 and other
global forums.

IOE is recognised for its unique
expertise, advocacy and influence as a
powerful and balanced voice for business
at the international level.

Vision and values

Our vision is to create a
sustainable economic
environment worldwide,
promoting free enterprise
that is fair and beneficial to
both business and society.

Our values are open dialogue,
action-oriented outcomes and
concerted commitment.

100 years of action

IOE was created in 1920 to advocate in the tripartite International Labour Organization on behalf of the global employer and business community.

IOE continues to defend and promote these same interests across a wide range of UN agencies, international organisations, intergovernmental processes and the media.

IOE has consolidated the perspectives and priorities of national employers' and business organisations in one single, effective and coherent voice that informs the deliberations and outcomes in international institutions, forums and debates and seeks the best deal for business.

What we do

- ▶ Expertise
- ▶ Advocacy
- ▶ Service

IOE membership provides:

Access to and influence in key agenda and policy-setting processes at the international level.

Opportunities, connections and learning through our networks, meetings and partnerships.

Expert and experienced updates, insights, analysis and positions on international policymaking trends and developments that seek to shape the environment for doing business.

ILO engagement

IOE acts as Secretariat to the Employer constituency in the tripartite structure of the ILO.

IOE members elect the Employer Members of the Governing Body (GB) and key Employer spokespersons at the International Labour Conference (ILC).

IOE member organisations are elected by their peers to play a leading role in the deliberations and outcomes of the GB and ILC. IOE members propose delegates to the range of ILO expert and sectoral meetings, which cover key sectors of any domestic economy and often produce standard-setting guidelines and codes of practice.

Business organisations from over 150 developing and developed economies enjoy IOE-facilitated access to ILO leadership, in both formal and informal settings, including to the ILO Director-General.
